Dealing with Allegations against Staff

The following procedures should be used in respect of cases in which it is alleged that a member of staff (including a volunteer) has:

- Behaved in a way that has harmed a child/young person, or may have harmed a child/young person
- Possibly committed an offence or related to a child/young person
- Behaved towards a child/children or young person/people that indicate s/he is unsuitable to work with children/young people

The allegation should be reported to the Principal immediately, unless the allegation is about the Principal in which case it should be reported to the Chair of Governors

If the allegation meets any of the above criteria the Principal should report it to the Local Authority Designated Officer (LADO) the same day. And the College will follow their advice on the way forward. In all incidences of allegations being made against a staff member, a report will be sent to Ofsted and Buckinghamshire County Council Early Years department informing them of the allegations and they will be kept fully informed of all actions taken.

The member of staff whom such an allegation is made will be suspended under the College Disciplinary or Harassment Procedures as appropriate

The member of staff who is the subject of the allegation should be kept informed of the progress of the case and the College should consider what support is appropriate, for example via occupational health and counselling arrangements. The member of staff should be kept informed of developments at the College while suspended and should be advised to contact their union or professional body at the outset

Parents/carers of the child/young person involved should be told about the allegation as soon as possible and kept informed of the progress and outcome

During the initial consideration the LADO will discuss the matter with the Principal and obtain further details including whether there is evidence that establishes the allegation is false or unfounded. The Principal should not investigate the allegation at this stage

Where there is cause to suspect that a child/young person is suffering or likely to suffer significant harm the LADO will refer to Social Services. Where there is not cause to suspect significant harm but that a criminal offence has been committed the LADO will refer the case to the police

The College will deal with the allegation where initial consideration decides that the allegation does not involve a possible criminal offence. If the nature of the allegation does not require formal disciplinary action the

Principal should take appropriate action within 3 working days. If a disciplinary hearing is required and can be held without further investigation this should take place within 15 working days

Where further investigation is required to inform consideration of disciplinary action the Principal, the Director of Human Resources and the LADO should discuss who should undertake that. The investigating officer should aim to provide a written report to the Principal within 10 working days

Once the report is received the Principal and the Chair of Governors should consult with the LADO and decide whether a disciplinary hearing is needed within 2 working days. If a hearing is needed it should be held within 15 working days

The LADO will continue to liaise with the College to monitor progress of the case and provide advice or support when required

If a criminal investigation is undertaken and the police decide not to charge the individual with an offence or administer a caution, or the person is acquitted by a Court, the police should pass all information they may have which is relevant to a disciplinary case within 3 working days. If the person is convicted of an offence the police should inform the College immediately so that appropriate action can be taken

If on conclusion of the case the College ceases to use the person's services or the person ceases to provide his or her services the Principal should consult the LADO about whether a referral to the DCFS/DIUS and the ISA is required. In addition to this the Nursery Safe guarding Officer will contact Ofsted to inform them of the outcomes regarding the person.

Every effort should be made to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or being considered

If the member of staff who is subject to the allegation tenders a resignation during the investigation, this must not prevent an allegation being followed up in accordance with these procedures. So called 'compromise agreements' must not be used in these cases

In the rare event that an allegation is shown to have been deliberately invented or malicious, the Principal should consider whether any disciplinary action is appropriate against the student who made it, or the police to consider whether any action might be appropriate against the person responsible if s/he was not a student

In a case where an allegation is made against another student or a student working with children the procedures apply but will be dealt with through the student disciplinary process. Consideration will be given to the age and stage of development of the student
