

Buckinghamshire College Group

Motor Vehicle Department Pre - Enrolment Workbook 2020-21

Name

Welcome to Motor Vehicle

The resources in this pack will help prepare you to start your course in September and give you an understanding of some of the techniques and skills you'll need to be successful as a student.

Please bring this work to your tutor along with anything else you have created to enrolment; we'd love to see what you've done and look forward to meeting you.

Your pack is broken down into 4 tasks. These have been designed to give you an insight into the topics covered within your chosen course.

Each task has several steps to follow to complete it. The processes of researching and preparing your work are essential skills in becoming successful within the Automotive Industry.

Aylesbury Campus

Wycombe campus

- 1) **Your task is to research how many jobs mechanics undertake in their role.**
(please list them below with a brief explanation of what is carried out during those tasks, continue on an additional sheet if you require)

Task 2) Health and Safety is taken very seriously across the industry Everybody has to wear Personal Protective Equipment (P.P.E). Can you name the items of PPE from the images shown below give a brief description of what they are used for?

	
	
	
	
	
	

Task 2 continued

	
	

Task 3) The list below show abbreviated legislation. Your task is to research what the abbreviated legislation stands for and what it covers.

<p>P.U.W.E.R</p>
<p>C.O.S.H.H</p>

H.A.S.A.W.A

R.I.D.D.O.R

Task 4) Write a couple of paragraphs that tell us why you want to join the Automotive Industry. Tell us a little about yourself and your interests. Please use extra paper if you need and attach it to this workbook.

We look forward to meeting you soon.
